DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5 and 7-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Lin et al. (US Pat. 6,458,695, hereinafter Lin).

Regarding claims 1-3, 5, 8-12, 15, and 16, Figure 11 of Lin discloses a metal oxide semiconductor field effect (MOSFET) device comprising: a semiconducting substrate 10 (Si)(col. 5, lines 10-13) having source/drain regions 52; a gate dielectric layer 60 (SiO₂) having a thickness of 15 angstroms (col. 5, lines 38-43) on the substrate; and a gate 62 formed of Re (col. 5, lines 50-53) on top of said gate dielectric layer.

Regarding claims 4 and 13, Lin discloses the gate dielectric layer can be formed of hafnium oxide (col. 5, lines 44-46).

Regarding claims 7 and 14, it is inherent in the device of Lin that the substrate 10 is n-type or p-type, in order to have a functioning transistor.

Response to Arguments

Applicant's arguments with respect to claims 1-5 and 7-16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
